### FEDERAL HOUSING FINANCE BOARD REPORTS CONTINUED LOWER MORTGAGE INTEREST RATES

Washington, D.C. – The Federal Housing Finance Board today reported that the contract rate on the composite of all mortgage loans (fixed- and adjustable-rate) decreased 5 basis points to 5.70 percent during April. The effective interest rate, which reflects the amortization of initial fees and charges, decreased 4 basis points to 5.75 percent. The average contract rate on fixed-rate mortgages, decreased 5 basis points to 5.84 percent in April, while the average contract rate on adjustable-rate mortgages (ARMs) decreased 2 basis points to 4.98 percent.

The average interest rate on conventional 15-year, fixed-rate, mortgage loans decreased 25 basis points to 5.56 percent during April. The average interest rate on 30-year, fixed-rate loans was 5.90 percent in April, the same as during March.

Initial fees and charges were 0.32 percent of the loan balance in April, up from 0.28 percent in March. Sixty-three percent of the purchase-money mortgage loans originated in April were "no-point" mortgages, down from 68 percent in March. The average term was 26.7 years in April, up from 26.6 years in March. The average loan-to-price ratio in April was 73.8 percent, up from 72.9 percent in March. The average loan amount increased by \$9,100 to \$169,000 in April, while the average house purchase price increased by \$9,500 to \$244,100.

Table VI is the regular quarterly table of mortgage rates and terms by Federal Home Loan Bank District.

The National Average Contract Mortgage Rate for the Purchase of Previously Occupied Homes by Combined Lenders, a popular ARM index, was 5.68 percent based on loans closed in April. This is a decrease of 0.08 percent from the previous month.

Recorded information on this index is available by calling (202) 408-2940. The May index value will be announced on June 26, 2003.

The Federal Housing Finance Board maintains telephone lines that give recorded information on the current value of many of the interest rates reported in this release. That phone number is (202) 408-2624. This recording will be next updated on June 26, 2003.

*Technical note: The data is based on a monthly survey of major lenders that are asked to report the terms and conditions on all conventional, single-family, fully amortized, purchase-money loans closed the last five working days of the month. The data thus excludes FHA-insured and VA-guaranteed mortgages, refinancing loans, and balloon loans. This month's data is based on 43,776 reported loans from 101 lenders, representing savings associations, mortgage companies, commercial banks, and mutual savings banks. The effective interest rate includes the amortization of initial fees and charges over a 10-year period, which is the historical assumption of the average life of a mortgage loan. The data is weighted to reflect the shares of mortgage lending by lender size and lender type as reported in the latest release of the Federal Reserve Board's Home Mortgage Disclosure Act data.*
